

Introducing:

Growing A Healthy Church On-Line!

We are delighted to partner with Growing a Healthy Church and present the new on-line edition of *GHC*. Growing a Healthy Church, a 16 year-old ministry services company, has purchased all of the Church Leadership Training division from Sonlife. They have added it to their Communication and Stewardship divisions. That includes Eternal CPR training, Assessment training and all of Sonlife's Advanced training. Their first project has been to transform *GHC Strategy* into a modular on-line training course, useable by anyone, anywhere in the world. *GHC Strategy* has become a foundational standard for C&MA pastoral and leadership training across the country. This 16-session training tool now provides the opportunity to take *GHC* to the next level in field training. With downloadable lesson plans and video instructors, this format can be used at home, in small groups or in any size of leadership or church training.

GHC I On-line is immediately available at a special C&MA website. Go to:
